

New Engine 19 in Service

03/29/14 84 W, 1 I - + 10 - 8

The Raleigh Fire Department placed a new Engine 19 in service yesterday. The 2014 Pierce Arrow XT 1500/500/20 pumper, job number 27076, was delivered on February 17. It replaces a 2000 Quality/Spartan MetroStar that will be moved to the reserve fleet. The three other new trucks, two 2014 Pierce Arrow XT rescue engines for Squad 14 and Squad 15, and a 2014 Pierce Arrow XT aerial platform for Ladder 1, haven't been placed in service yet. 11 calls the 1st day A Platoon was on the new rig.

A Platoon - 03/30/14 - 11:35

Now that is a nice truck. Have there been any spec changes over the last couple years?

1000GPM or 750 gallon tank etc???

Buckwheat - 03/31/14 - 10:40
