

**Chapel Hill's New Blue Quint**

05/13/14 116 W, 2 I - + 6 - 5

Lee Wilson yesterday photographed Chapel Hill's new Engine 35, a 2014 Sutphen Monarch quint, 1500/500/75-foot. The truck was delivered on Monday morning. It replaces a 2001 HME quint that will be moved to reserve. This adds a third aerial to the town's fleet, along with Truck 73, a 2006 KME Predator mid-mount aerial platform.

Also this week, the department retired their last piece of red apparatus, reserve Engine 38, an 1988 E-One Cyclone. The town's other reserve apparatus include Engine 37 (former E31/E33, a 2001 International/KME) and Engine 39 (former E32, a 1996 Ferrara/Spartan). [See more photos](#) from Lee of the new quint. Search [Lee Wilson's Flickr site](#) for more Chapel Hill apparatus photos.
