

More Fun with Corporation Records

09/03/14 796 W - + 5 - 2

The North Carolina Department of the Secretary of State's [Corporation Division](#) has unveiled a new search engine for their corporate records. It becomes the default search tool on October 1. The current search tool was limited to 500 records in its results. The new search tool returns unlimited results, in sets of 200. Thus one can query several hundred fire department names. (Though a couple of my queries bombed. Such as "fire company" and "EMS." Neither of those search terms worked as expected.)

Here's an example of all corporation names containing either "fire department" or "fire protection" (non-profit only, ergo a fire department), and where the status equals either "dissolved" or "merged." Thus we get a good list of former fire departments. At least those that were incorporated. I will merging any new data into my [former fire departments database](#).
