L to R; #16, #6, and #7. There was a fourth raised-roof Suburban, #5. It had grill flashers (#6 and #7 did not- #7 was the one with the Q2B) and at one time sported a mechanical siren-light on the right fender. #7 was involved in a roll over MVC around Edenton and Wilmington and was repaired.

The MVA involving Beacon 7 was at the intersection of Wilmington and Morgan.
