

New Numbering for Durham County Fire & Rescue

04/14/15 282 W, 2 I - + 9 - 4

[Durham County Fire & Rescue](#) renumbered their stations and apparatus, effective last week. The former Bethesda fire stations were numbered in the 40s. The Parkwood fire stations were numbered in the 60s. The stations have been renumbered in the 80s:

Old	New	Address	Opened
PFD 63	DCFD 81	4716 Old Page Road	1987
BFD 41	DCFD 82	1724 S. Miami Boulevard	1982-83
PFD 61	DCFD 83	1409 Seaton Road	1976
BFD 42	DCFD 84	7305 Leesville Road	1988
PFD 62	DCFD 85	4300 Farrington Road	1984

Here's a map along with pictures of a couple rigs. [See more photos from Monday](#), as lettering and emblems were updated at Station 82. Click to enlarge:

Notes:

- Plus Chief Officers DC-801 through DC-801, plus Safety 81.
- Ladder 633 is being sold, that's a 1985 E-One platform 1500/200/95-foot.

- Alternate years as listed in [Durham County's Fire District Consolidation Feasibility Study final report](#), issued November 2013.
- Durham County EMS units are also housed at the fire stations, including daytime unit at 81, and 24-hour units at 82, 83, and 85.
- [See prior blog posting](#) about the pending Parkwood Fire Department merger.

Just FYI, there's a discrepancy between your station listing and the map — the map shows old Parkwood Station 1 as 81 and Parkwood 3 as 83, but the list shows the reverse

Thank you, Egg. Maps updated with correct numbering.

Regarding station 82, any idea why the Sutphen would be an engine (E82) and not a ladder?

Second question, I've never understood why Miami Blvd has a DFD station 2 miles down the road from the(now) DCFR station 82? Seems kinda weird.

Paul - 04/15/15 - 09:33

Bethesda's smaller Sutphen ladder has always functioned as an engine company, if memory serves.

Are all five Durham County stations staffed 24/7?

FF8 - 04/15/15 - 10:28

Re: Staffing. All 5 Stations staffed 24/7.

Doc J - 04/21/15 - 10:17

Anyone know why station 85 is running such old rigs?

FF8 - 04/22/15 - 14:01

2 items – Station 85 is staffed by one person and is there for ISO purposes and my guess is primarily the tanker. It's a small station and won't hold the typical current configuration custom pumper. As for Durham FD #13 on S. Miami. It is there to cover areas on S. Miami and that side of the RTP south to county line and Morrisville. Not really any different than the mix of RFD and county stations in Wake Co.
