Fire Chiefs to be updated

Jeff Cash
N C Delegate for NVFC

What Is Relief Fund?

The Relief Fund money is one half of one percent of the fire and lighting insurance written in a fire district. To be eligible for relief fund money, a fire department must do three things. A fire department must be a member of the NCSFA, a department must turn in a relief fund report to the NCSFA that is due June 31, but you have a grace period until October 31 and a department must turn in a Fire Condition Report to the Department of Insurance no later than January 31.

The Relief Fund money can be used within the fire department in several ways. Relief Fund money can be used to help a fireman who has been hurt in the Line of Duty. It can also help firemen who are destitute as long as they meet the requirements. Your relief fund board must agree to help this person, this person must have been a fireman in North Carolina for five years, and you must have written permission from the Executive Director of the NCSFA. Relief Fund money may also be used with

permission to pay a supplemental retirement, additional insurance and any other program that will benefit the entire department.

Should you have any questions regarding Relief Fund Money, please contact Paul Miller at the NCSFA.
